

# Creating moments that matter for those affected by dementia

We know that a diagnosis of dementia can lead to many feelings of uncertainty. The news often affects many people, from the individual receiving it, cascading to loved ones including a spouse, partner, a child and/or a close friend. And everyone will be different to how they may respond.

Through **Greater Moments**, we are pioneering a new way of focusing on the life it is possible to lead with dementia. Here, you can enjoy new experiences, make new connections and record and reflect on the moments that truly matter to you.

Whether you are a person living with dementia, a carer or supporting family member, registering for **FREE** with the app will offer you a range of benefits including:

- **Keeping a record of how you are feeling** – noticing experiences that support your mood and overall wellbeing
- A **single point access to services, activities and events** – including Greater Moments exclusives
- An ability to **instantly feedback** on activities, events and services **directly helping to improve standards and experiences**
- A **calendar of everything coming up** that can be shared with those closest to you
- A safe place to **store and reflect on daily moments**, proven to support memory and improve wellbeing
- A fresh opportunity to **enjoy new connections**, opportunities and events

“Fantastic app, all the info I need in one place. I use it every day for me and my dad. Can’t wait to try the activities and make new memories and friends.”
